the aim of this research topic was to offer an interdisciplinary forum for researchers interested in the interplay of face eye gaze and body perception in the understanding of others with an emphasis on behavioural and neural processing the papers included in this topic come from cognitive neuroscience and social psychology perspectives and shed new light on how facial and body cues interact with each other and with social ecological and contextual factors such as for example social identification and group membership to form a unified representation that can guide our perceptions and responses to other people altogether they provide an up to date picture of advances in this fascinating research field

make stronger connections with anyone in the world by learning how to read faces the power of face reading is the most comprehensive easy to use book on face reading available today author mac fulfer makes face reading fun and easy for you to understand more about the people you encounter no matter who you meet or where you are in the world face reading is our foundational international language and none of our seeming differences matter whether nationality gender race or culture because every person's face can be read in the exact same way for instance the lines on our faces don't reflect aging they're actually a roadmap showing where we have been and what we've done so this book is not about interpreting facial expressions it's about learning to read the stories that a person's face can tell using a unique approach that combines both genetics the face you are born with and epigenetics the way life events alter facial features over time this book helps you understand others better discover how learning to interpret simple and easily recognized features such as ear size and eyebrow shape can allow you to make a better connection with anyone anywhere superbly illustrated and organized like an encyclopedia the power of face reading guides you through all you need to know about reading faces from top to bottom detail to gestalt gesture to metaphoric meaning the approach shared in this book is so easy to learn that you can put this how to guide to use and begin reading faces within minutes of opening it up everyday applications for face reading include improving both work and personal relationships interviewing and hiring the right people team building negotiating better coaching counseling finding the right job increasing sales by identifying buy signals identifying better business partners reading your audience when presenting the power of face reading includes 275 illustrations clear explanations of what each facial feature means personality profiles to provide insight into every person you meet sample readings to learn mac's step by step face reading approach a useful checklist to help you read faces immediately a fun face reading quiz to test yourself

face perception is a highly evolved visual skill in humans this complex ability develops across the life span steeply rising in infancy refining across childhood and adolescence reaching highest levels in adulthood and declining in old age as such the development of face perception comprises multiple skills including sensory e.g. mechanisms of holistic configural and featural perception cognitive e.g. memory processing speed attentional control and also emotional and social e.g. reading and interpreting facial expression domains whereas our understanding of specific functional domains involved in face perception is growing there is further pressing demand for a multidisciplinary approach toward a more integrated view describing how face perception ability relates to and develops with other domains of sensory and cognitive functioning in this research topic we bring together a collection of papers that provide a shot of the current state of the art of theorizing and investigating face perception from the perspective of multiple ability domains we would like to thank all authors for their valuable contributions that advanced our understanding of face and emotion perception across development

face perception is the process by which the brain and mind understand and interpret the face particularly the human face the

face is an important site for the identification of others and conveys significant social information probably because of the importance of its role in social interaction psychological processes involved in face perception are known to be present from birth to be complex and to involve large and widely distributed areas in the brain these parts of the brain can be damaged to cause a specific impairment in understanding faces known as prosopagnosia this book presents the latest research in the field
