this revised and updated handbook features a selection of essay style book reviews by

carol tavris written for the times literary supplement the chronicle of higher education american scientist and the new york times book review these reviews apply psychological research and principles of scientific thinking to ideas presented in the books they aim to show how critical thinking can help people assess arguments promoted in the popular culture and how to separate those that are scientifically sound from those based on psychobabble pop psych notions dressed up in fancy sciency sounding language these essays may be used to encourage debate in the classroom or as a basis for student papers students can be asked to write or present their own points of view on a topic drawing on other research and the guidelines of critical thinking defined and described in a prefatory note to the reader to support their conclusions although these reviews can be used in many social science and composition courses the topics covered and the critical thinking guidelines that apply to them correspond to specific material in carole wade and carol tavris s psychology and invitation to psychology

this landmark book san francisco chronicle dispels the common myths about the causes and uses of anger as dr carol tavris expertly examines every facet of that fascinating emotion from genetics to stress to the rage for justice social psychologist dr carol tavris explores myths around anger ideas such as expressing anger is always good for you suppressing anger is always unhealthy or that women have special anger problems that men do not and provides a helpful guide on how to use anger constructively and how to diminish anger without being aggressive or hostile fully revised and updated anger now includes a new consideration of biological politics should testosterone or pms excuse rotten tempers or aggressive actions the five conditions under which anger is likely to be effective and when it s not strategies for solving specific anger problems chronic anger dealing with difficult people repeated family battles anger after divorce or victimization and aggressive children

this selection of opinion essays and book reviews by carol tavris written forthe los angeles times the new york times scientific american and other publications applies psychological research and principles of scientific and critical thinking to issues in the news as readers work their wayinteractivelythrough the essays thinking through the

author's position and their own on the various issues they engage and strengthen their critical thinking skills e.g. asking questions and wondering defining terms examining the evidence analyzing assumptions and biases one's own and those of others avoiding emotional reasoning not oversimplifying considering other interpretations and tolerating uncertainty focuses on important areas such as science vs pseudoscience controversies in child development the politics and science of gender research applying psychology to social issues and mental disorder and treatment individual essay topics include for example the popularity of predictions thinking critically about alternative medicine thinking critically about mystical messages the working mother debate how much influence do mothers have how much influence do parents have how critical are the first years of life the interpretation of differences the paradox of gender biological politics and the study of gender emotional epidemics and their consequences the daycare sex abuse scandals adolescent violence the limits of medication and thinking critically about psychotherapy for anyone who wants to explore the psychological basis of current popular culture issues and to engage in and strengthen the critical thinking skills

why is it so hard to say i made a mistake and really believe it when we make mistakes cling to outdated attitudes or mistreat other people we must calm the cognitive dissonance that jars our feelings of self worth and so unconsciously we create fictions that absolve us of responsibility restoring our belief that we are smart moral and right a belief that often keeps us on a course that is dumb immoral and wrong backed by years of research mistakes were made but not by me offers a fascinating explanation of self justification how it works the damage it can cause and how we can overcome it this updated edition features new examples and concludes with an extended discussion of how we can live with dissonance learn from it and perhaps eventually forgive ourselves

emphasizes critical thinking culture and gender psychology 11 e shows students why scientific and critical thinking is so important in the decisions they make in clear lively warm prose this edition continues the title's integration of gender culture and ethnicity by the end readers will learn how to interpret research and to address and resolve

controversies mypsychlab is an integral part of the wade tavris garry program engaging activities and assessments provide a teaching and learning system that helps students think like a psychologist with mypsychlab students can watch videos on psychological research and applications participate in virtual classic experiments and develop critical thinking skills through writing this title is available in a variety of formats digital and print pearson offers its titles on the devices students love through pearson s mylab products coursesmart amazon and more

this text emphasizes the importance of critical thinking and the integration of culture and gender in the science of psychology well known for its pioneering focus on the development of critical thinking skills crucial to students success in college and in later life psychology by wade tavris is also widely regarded for the liveliness warmth and clarity of its writing style continuing its tradition of integrating gender culture and ethnicity throughout the text psychology provides a comprehensive introduction to the field

a new edition updated in 2020 why is it so hard to say i made a mistake and really believe it when we make mistakes cling to outdated attitudes or mistreat other people we must calm the cognitive dissonance that jars our feelings of self worth and so unconsciously we create fictions that absolve us of responsibility restoring our belief that we are smart moral and right a belief that often keeps us on a course that is dumb immoral and wrong backed by decades of research mistakes were made but not by me offers a fascinating explanation of self justification how it works the damage it can cause and how we can overcome it extensively updated this third edition has many recent and revealing examples including the application of dissonance theory to divisive social issues such as the black lives matter movement and he said she said claims it also features a new chapter that illuminates how cognitive dissonance is playing a role in the currently polarized political scene changing the nation s values and putting democracy itself at risk every page sparkles with sharp insight and keen observation mistakes were made but not in this book daniel gilbert author of stumbling on happiness a revelatory study of how lovers lawyers doctors politicians and all of us pull the wool over our own eyes reading it we recognize the

behavior of our leaders our loved ones and if we're honest ourselves and some of the more perplexing mysteries of human nature begin to seem a little clearer francine prose o the oprah magazine

for undergraduate introductory courses in psychology in this brief thirteen chapter text authors carole wade and carol tavris draw upon their years of writing experience both for academic and lay audiences and on their years of teaching at two and four year schools in order to invite students into a lively and relevant exploration of psychology with invitation to psychology students gain the skills they need to become successful critical and scientific thinkers and actively bring these skills to bear on important matters in their own lives

aiming for depth of concept rather than breadth of coverage tavris reorganises traditional material by psychological perspectives rather than by topics in order to offer an unbiased presentation of the strengths limitations and misuses of each

when man is the measure of all things woman is forever trying to measure up in this enlightening book carol tavris unmasks the widespread but invisible custom pervasive in the social sciences medicine law and history of treating men as the normal standard women as abnormal tavris expands our vision of normalcy by illuminating the similarities between women and men and showing that the real differences lie not in gender but in power resources and life experiences winner of the american association for applied and preventive psychology s distinguished media contribution award

an overview of psychology that emphasizes critical thinking gender and culture psychology is designed to help students learn to think like psychologists and to understand why scientific and critical thinking is so important to the decisions they make in their own lives in keeping with their hallmark approach authors carole wade and carol tavris along with new contributor alan swinkels continue to emphasize critical thinking and to integrate coverage of gender and culture throughout the main narrative the twelfth edition offers revised learning objectives that better guide students through the text as well as updated research references that reflect progress in the field and cutting edge discoveries from publisher s website

social psychologist tavris discusses the widespread but invisible custom pervasive in the social sciences medicine law and history of treating men as the normal standard women as abnormal tavris expands our vision of normalcy by illuminating the similarities between women and men showing that the real differences lie not in gender but in power resources and life experiences

ask questions and be willing to wonder revel tm invitation to psychology 7th edition weaves scientific thinking and critical thinking into the fabric of psychological science joining longtime authors carole wade and carol tavris new co authors samuel sommers and lisa shin of tufts university call upon their research and teaching expertise to speak to today s students their contributions include expanded gender coverage as well as engaging new cultural and pop cultural examples by prompting students to separate fact from fiction and to distinguish wishful thinking from thinking wisely the authors inspire students to ask questions and be willing to wonder and help them become 21st century thinkers revel is pearson s newest way of delivering our respected content fully digital and highly engaging revel replaces the textbook and gives students everything they need for the course informed by extensive research on how people read think and learn revel is an interactive learning environment that enables students to read practice and study in one continuous experience for less than the cost of a traditional textbook note revel is a fully digital delivery of pearson content this isbn is for the standalone revel access card in addition to this access card you will need a course invite link provided by your instructor to register for and use revel

this edited collection addresses the institutional context and social issues in which teaching the women s studies introductory course is embedded and provides readers with practical classroom strategies to meet the challenges raised the collection serves as a resource and preparatory text for all teachers of the course including experienced teachers less experienced teachers new faculty and graduate student teaching assistants the collection will also be of interest to educational scholars of feminist and progressive pedagogies and all teachers interested in innovative practices the contributors discuss the larger political context in which the course has become a central representative of women s studies to a growing although less feminist identified

population increased enrollments and changes in student population are noted as a result in part of the popularity of introduction to women s studies courses in fulfilling gender and diversity requirements new forms of student resistance in a climate of backlash and changes in course content in response to internal and external challenges are also discussed evidence is provided for an emerging paradigm in the conceptualization of the introductory course as a result of challenges to racism heterosexism and classism in women s studies voiced by women of color and others in the 1980s and 1990s sensationalist charges that women s studies teachers including those who teach the introduction to women s studies course are the academic shock troops of a monolithic feminism are challenged and refuted by the collection s contributors who share their struggles to make possible classrooms in which informed dialogue and disagreement are valued

new york times bestseller a refreshingly real people guide to menopause and aging by beloved actress naomi watts one of the leading voices in menopause awareness with a foreword by mary claire haver md author of the new menopause this book will resonate with women everywhere seeking guidance solidarity and the reassurance that they are not alone in their journey dr lisa mosconi author of the menopause brain at thirty six naomi watts had just completed filming king kong and was trying to start a family when she was told that she was on the brink of menopause it is estimated that seventy five million women in the united states are currently dealing with menopause symptoms dry itchy skin raging hormones night sweats and yet the very word menopause continues to be associated with stigma and confusion with so little information many women feel unprepared ashamed and deeply alone when the time comes this is the book naomi watts wishes she had when she first started experiencing symptoms like sitting down over coffee and having an intimate chat with your girlfriend dare i say it blends funny and poignant stories from naomi and her friends with advice from doctors hormone experts and nutritionists to take the secrecy and shame out of menopause and aging answering questions such as what s hormone therapy and should i be on it will i ever sleep again will i get myself back what happened to my libido do i need eighteen serums for my aging skin whose body is

this anyway who am i now naomi watts shares the most up to date research on how to manage menopause symptoms and tackle the physical and emotional challenges we encounter as we age irreverent bold and reassuring dare i say it is the companion every woman needs to embrace the best version of herself as she moves into what can be the most powerful and satisfying period of her life

thinking is an innate ability that most people take for granted but like writing well or speaking effectively before the public thinking well is a skill that can be learned and improved with practice in this unique introduction to critical thinking robert bartholomew and benjamin radford first lay out the principles of critical thinking and then invite readers to put these principles to the test by examining a series of unusual and challenging case studies assembling a wide range of bizarre but actual incidents from many cultures and various time periods they demonstrate how the tools of critical thinking can help to unravel alleged paranormal events and seemingly mysterious behavior what factors led to the martian panic of 1938 why did many people conclude that an alien spaceship crashed in roswell new mexico in 1947 how do we explain the panic expressed by otherwise normal southeast asian men who came to believe that a contagious disease was causing their genitals to shrink or the frenzied dance manias that captivated thousands of europeans during the middle ages bartholomew and radford show that reality is very much a social construction that cultural assumptions play a large part in our judgments about what is normal and what is deviant and that the use of critical reasoning is our best means of ensuring an objective perspective

for use with invitation to psychology carole wade carol tavris

please note this is a companion version not the original book sample book insights 1 half a century ago a young social psychologist named leon festinger and two associates infiltrated a group of people who believed the world would end on december 21 they wanted to know what would happen to the group when the prophecy failed 2 self justification is the process by which we find ways to reduce cognitive dissonance which is a state of tension that occurs when we hold two

cognitions that are contradictory such as smoking is a dumb thing to do but i do it anyway 3 the theory of dissonance states that when people go through a great deal of pain discomfort effort or embarrassment to obtain something they will be happier with that something than if it came to them easily this is because they will have tried to justify their actions and their cognition that they are a sensible and competent person is dissonant with their cognition that they went through a painful procedure to obtain something 4 the beauty of an experiment is the random assignment of people to conditions regardless of a person s initial interest in joining a group they would be randomly assigned to either the severe initiation or the mild initiation condition

this book opens a new frontier in understanding nonviolence discussions of peace and nonviolence usually focus on either moral theory or practical dimensions of applying nonviolence in conflict situations teaching peace carries the discussion of nonviolence beyond ethics and into the rest of the academic curriculum this book isn t just for religion or philosophy teachers it is for all educators teaching peace begins with a discussion rooted in christian theology where nonviolence is so central and important but it is clear that there are other paths to nonviolence and that one certainly doesn t have to be a christian to practice nonviolence the pieces that follow therefore show how a nonviolent perspective impacts disciplines across the curriculum from acting to biology to mathematics to psychology

an entertaining research based introduction to modern social psychology a landmark text that maintains its relevance and unique approach edition after edition the social animal offers you a brief compelling introduction to modern social psychology through vivid narrative lively presentations of important research and intriguing examples elliot aronson probes the patterns and motives of human behavior covering such diverse topics as terrorism conformity obedience politics race relations advertising war interpersonal attraction and the power of religious cults now with a stronger focus on evolutionary and neuroscientific approaches throughout this entertaining masterpiece will illuminate the study of human behaviors through real life scenarios you ll relate to
