this book provides models for acquisitions policies and reports on several surveys of  
faculty and librarian attitudes toward e books it also discusses certain issues in acquiring  
cataloguing and collection development regarding this important new library resource

academic e books publishers librarians and users provides readers with a view of the  
changing and emerging roles of electronic books in higher education the three main  
sections contain contributions by experts in the publisher vendor arena as well as by  
librarians who report on both the challenges of offering and managing e books and on  
the issues surrounding patron use of e books the case study section offers perspectives  
from seven different sizes and types of libraries whose librarians describe innovative and  
thought provoking projects involving e books read about perspectives on e books from

organizations as diverse as a commercial publisher and an association press learn about the viewpoint of a jobber find out about the e book challenges facing librarians such as the quest to control costs in the patron driven acquisitions pda model how to solve the dilemma of resource sharing with e books and how to manage pda in the consortial environment see what patron use of e books reveals about reading habits and disciplinary differences finally in the case study section discover how to promote scholarly e books how to manage an e reader checkout program and how one library replaced most of its print collection with e books these and other examples illustrate how innovative librarians use e books to enhance users experiences with scholarly works

despite the fact that e books have been in existence for decades in various guises and added to library collections for several years now there has been a noticeable lack of published manuals on the subject this is doubtless owing to the rapidly evolving nature of the market there is now a plethora of different types of digital object that may be termed e books and a bewildering number of business and access models to match moreover the pace of change shows no sign of abating but there is an increasing amount of popular interest in e books and what is needed is practical information to assist library and information professionals managing collections of e books and doing their best to inform their users right now the book is divided into five parts the production and distribution of e books planning and developing an e book collection delivering e books to library readers engaging readers with e books the future of e books virginia havergal ba hons msc med ffl is a learning centres and e resources manager for petroc a further education college in devon prior to this role she was an e learning advisor with jisc with a particular focus on learning resources kate price ba hons ma mclip is head of e strategy and resources at the university of surrey

this report looks closely at how libraries use ebooks it is based on a survey of 68 academic public corporate legal and other special libraries and covers licensing collection planning use of consortiums for purchasing number and type of suppliers used spending levels spending plans use of tablets ereaders and other technologies use of etextbooks edirectories and related spending plans preferences for licenses from individual publishers or aggregators and plans for license renewals the study gives details of use of and spending on a broad range of vendors and distributors including amazon and barnes noble among many others the study also covers use of ebooks for course reserves ebook issues in interlibrary loan and the emergence of dedicated endowments for ebook purchases the study also covers the types of ebook models preferred by libraries of different types and how librarians view likely developments in the ebook industry

ar 70 31 03 10 1986 standards for technical reporting survival ebooks

this guide provides library directors managers and administrators in all types of libraries with complete and up to date instructions on how to evaluate library services in order to improve them it s a fact today s libraries must evaluate their services in order to find ways to better serve patrons and prove their value to their communities in this greatly updated and expanded edition of matthews seminal text you ll discover a breadth of tools that can be used to evaluate any library service including newer tools designed to measure customer and patron outcomes the book offers practical advice backed by solid research on virtually every aspect of evaluation including quantitative and qualitative tools data analysis and specific recommendations for measuring individual services such as technical services and reference and interlibrary loan new chapters give readers effective ways to evaluate critical aspects of their libraries such as automated systems physical space staff performance management frameworks ebooks social media and information literacy the author explains how broader and more robust adoption of evaluation techniques will help library managers combine traditional internal measurements such as circulation and reference transactions with more customer centric metrics that reflect how well patrons feel they are served and how satisfied they are with the library by applying this comprehensive strategy readers will gain the ability to form a truer picture of their library s value to its stakeholders and patrons
